

Simple and safe

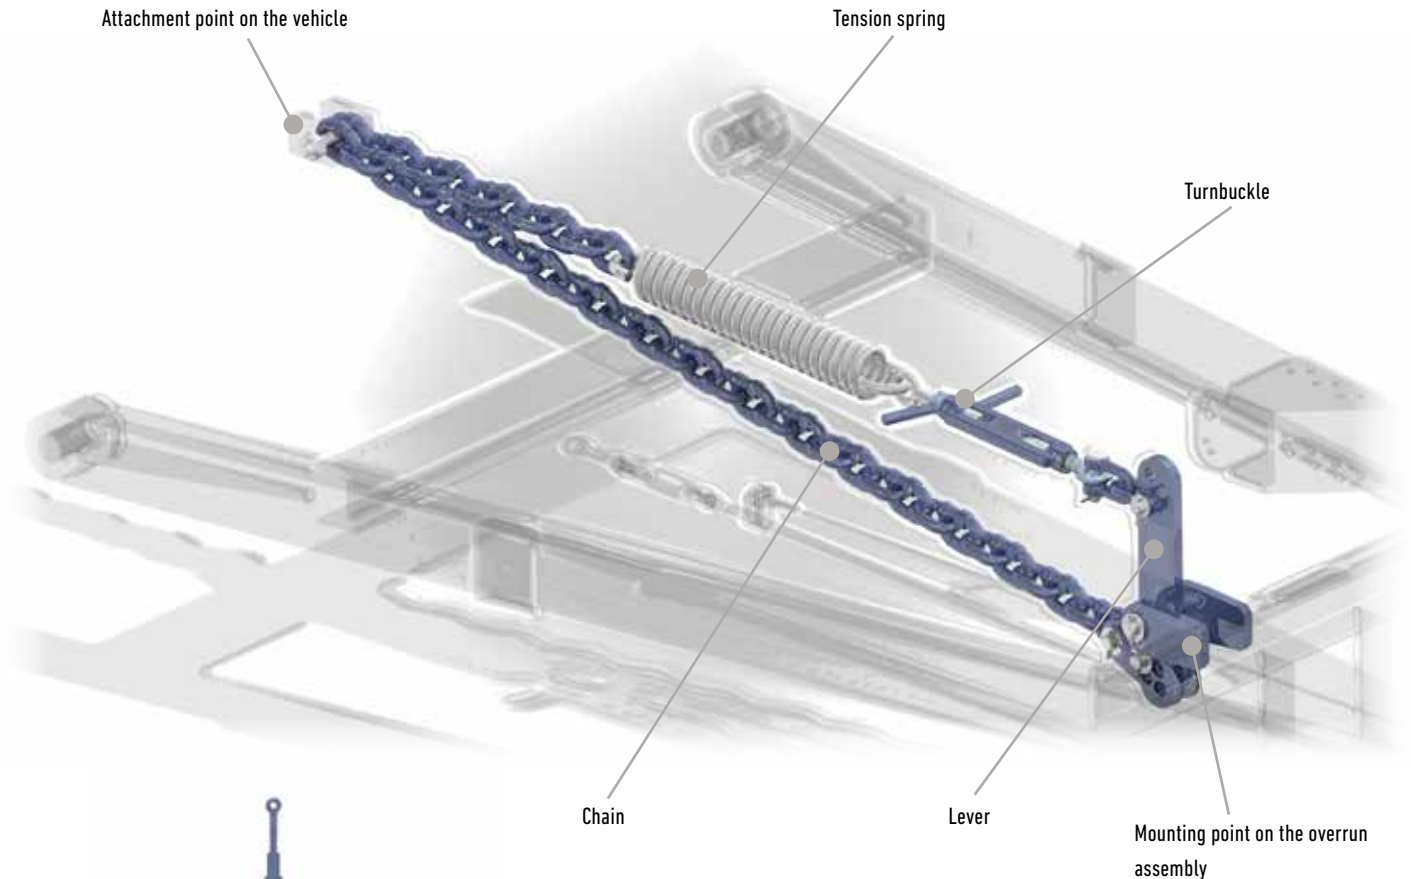

The **patented** height adjustment device **from BPW**

we think transport

Maintenance-free height adjustment device

Overrun assemblies for multi-axle trailers are designed for operation without drawbar load. This calls for a height adjustment device with which the overrun assembly can be fixed at the preset coupling height.

Flyer Höhenstellrichtung 17001501e

Features and benefits

- › Simple and variable fitting thanks to small number of attachment points
- › Multi-step lever length adjustment
- › Freely adjustable holding force
- › Certified chain (Cr6-free)
- › Designed for overrun assemblies with lengths of up to approx. 4.000 mm
